

April 27, 2010

If you are experiencing a problem where the search application does nothing after you select a County or Municipality the problem may originate with your browser's Pop-up Blocker.

You have two options:

- 1) Temporarily allow Pop-ups
Click on the "Temporarily Allow Pop-ups" ribbon that is running under the Menu Bar,
- 2) Configure your Pop-up Blocker Setting to allow pop-ups for the tank search application.
Go to the Pop-up Blocker Settings and enter the URL for the Tank program Internet search application. Copies the search applications's URL and paste it in the box.
